**United Electric Informational Statement on the Build America, Buy America Act**

The Build America, Buy America (BABA) Act<sup>1</sup> requires that construction materials for federally funded infrastructure projects are “produced in the United States,” and “that all manufacturing processes for the construction material occurred in the United States.” The Act also requires that manufactured products for federally funded infrastructure projects are manufactured in the United States and that “the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55% of the total cost of all components of the manufactured product.”

Most UE products produced at our Massachusetts facility meet the requirements under BABA. If you have questions about a particular product, please contact UE’s Sales Application Engineering team at [insidesales@ueonline.com](mailto:insidesales@ueonline.com).

**United Electric Controls Company – U.S.A. manufacturing location:**

- 180 Dexter Avenue, Watertown, Massachusetts 02472

<sup>1</sup> Refer to Title IX of the Infrastructure Investment and Job Act, enacted in November 2021:
